discovery in Pentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not head in their place firmly enough, and add to this the annoyance of food getting order the plate while eating. I have discovered a method of so constructing the plate of chief the teeth are set that they will not start a denumber of the plate o or drop while eating or speaking, neither will my particles of food get under the plate, ne matter what the condition of the mouth is chich is not true of any method lathertoused. I have secured Letters Patent for the United

states, England and France.
The improvement is not in material, but in the construction, which secures the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, to wit, the Counties of Frank-in, Washington, Chittenden, Lamoulle and Trand Isle. Those wishing to avail themselves of such improvement, will call on
